

# NEW ROCK CITY

NEW SINGLE, **RIGHT NOW**, AVAILABLE FEB 20TH

New Rock City is a rock & roll band formed in NYC in 2010. Rossano (vocals) & Kick (guitar) met that year taking the same cab after a concert at Jones Beach and after discovering their affinities in music, decided to start the project as a duo. In 2012, they decided to go in the studio to make what was to become their first record 'New Rock City'. With the help of Paul Frye (Andy Wallace's assistant engineer) they recorded the LP at The Carriage House Studios in CT and mixed at Soundtrack Studios in NY. The album came out on Feb 2014. To promote it, Rossano and Kick decided to go on as a four piece band, enter Jem Warren on bass and Tim Kuhl (Sean Lennon's drummer) on drums. With their energetic live shows and powerful songwriting, they soon started gathering a following in NYC's RnR scene opening for The Heartbreaker's Walter Lure and Lenny Kaye from The Patti Smith Group. Their single 'Oh Baby Baby' was featured in Sirius XM's Little Steven's Underground Garage and after much buzz around the city they gathered the attention of producer Matt Chiaravalle (Warren Zevon, Courtney Love, Joe Bonamassa, Blondie). In 2017, they went in the studio with Chiaravalle to record their new single 'Right Now' which will be released in February 2018 following with the shooting of its music video directed by the well-known director and photographer David J Barron. They are currently working on their second album which will be released later this year.
